EXPERIENCE

Data Science Manager

Growthco Education 📅 08/2021 - Present 📍 London, United Kingdom

Education technology startup with 50+ employees and \$100m+ annual revenue

- Supervised a 15-man team of data scientists that created predictive models for client acquisition, increasing market share by 88% YoY.
- Developed the road map to support RW's short, medium, and long-term goals in the first 30+ days.
- Provided leadership with real-time visibility into company operations by creating dashboards displaying 10+ business KPIs using Qlik Sense.
- Submitted the data analysis and reports on quarterly achievement to 20+ board members, helping them to make 75% of business decisions.

SQL Programmer

Polyhire 📅 10/2019 - 07/2021 📍 London, United Kingdom

NYSE-listed recruitment and employer branding company

- Upgraded an existing server application that provided transaction processing functionality to handle over 2700+ simultaneous customer requests.
- Created tables and processes to construct customer contact lists based on outstanding transactions, which 30+ branch offices use during sales events.
- Overhauled a current database system for 10+ clients and formalized the database with state-of-the-art advances in SQL.
- Designed queries and shell scripts to produce files containing purchase metrics and transfer them to the cloud for 20+ field management teams to view daily performance data on the go.

Business Intelligence Developer

XYZ Company

📅 06/2016 - 09/2019 📍 London, United Kingdom & Barcelona, Spain

Career training and membership SaaS with 150,000 users

- Examined product specifications, business communication, industry data, and 670+ business documents.
- Created status reports for 30+ senior managers about suggestions for technological upgrades based on analyses of competitive information.
- Developed reports for 250+ sales representatives across the country in the first month on the job.
- Partnered with global branch offices to create a business intelligence solution that satisfied the ERP reporting requirements of 1200+ clients.
