SUMMARY

Experienced Data Warehouse and BI Architect with expertise in designing, building and deploying data warehouse, analytics and BI solutions, and shaping large reporting and analytics programmes.

EXPERIENCE

Data Warehouse Developer

AT&T

📅 01/2020 - Present 📍 Somerset NJ

- Involved in dimensional modeling to design data warehouse
- Used Datastage Sequencer jobs extensively to take care of inter dependencies and to run Datastage parallel jobs in sequence
- Performed QA Testing for all the Store Procedures to validate the sales results
- Worked with QlikView, SQL Server, Oracle, SAP, Excel, at les

Hadoop Developer

XYZ Corporation

📅 01/2015 - 01/2020 📍 Somerset NJ

- Designed HBase schema to avoid Hotspotting and exposed the data from HBase tables to REST API on UI
- Experienced with NoSQL database and handled using the queries
- Worked on the backend using Scala and Spark to perform several aggregation logics
- Developed Schemas of EDI ANSI X 12 Claims (837) and Eligibility forms in XML

Java Consultant

MetLife

📅 01/2014 - 01/2015 📍 Somerset

- Used Ant scripts to build and deploy the application in IBM Web sphere Application Server
- Worked on JAVA/J2EE, Web Services for the business core and Oracle in the backend
- Coded oracle stored procedures to implement complex database logic

EDUCATION

Bachelor's in Computer Science

Rutgers, The State University of New Jersey

📅 01/2014

SKILLS

ANSI	API	Datastage	dimensional modeling	EXCEL	Hadoop	HBase	IBM	J2EE	Java
NoSql	Oracle	QA Testing	QlikView	rest	SAP	Scala	Spark	SQL	SQL Server
Web Services	XML								

STRENGTHS

Data Warehouse Design

Designed and implemented scalable data warehouse solutions resulting in 50% faster data retrieval

Problem Solving

Successfully resolved complex data modeling issues resulting in 20% increase in query performance
