SUMMARY

Power BI Developer with 7 years of experience in designing, developing, and deploying data-driven solutions using Microsoft Power BI. Proven ability to work independently and as part of a team to deliver high-quality, user-friendly BI solutions that meet business needs.

EXPERIENCE

Senior Power BI Developer
Microsoft   2022 - Present   Los Angeles CA

· Developed and maintained 50+ Power BI reports and interactive dashboards, providing critical insights to stakeholders across the organization.
· Collaborated with cross-functional teams to gather requirements, design data models, and implement scalable solutions that aligned with business objectives.
· Implemented advanced data transformation techniques using Power Query and DAX, resulting in a 30% improvement in data accuracy and efficiency.
· Created visually compelling and user-friendly reports and dashboards, increasing user engagement and adoption of data-driven decision-making.
· Conducted in-depth data analysis and forecasting, contributing to a 20% increase in revenue and decrease in operational costs.
· Optimized performance of Power BI solutions by identifying and resolving bottlenecks, resulting in a 40% reduction in report rendering time.
· Provided training and support to end-users, promoting self-service reporting and empowering teams to leverage the full potential of Power BI.

BI Developer
OpenSea   2020 - 2022   Los Angeles CA

· Developed and maintained data pipelines and data warehouses to support business intelligence initiatives.
· Built and deployed data visualizations and dashboards to communicate insights to stakeholders.
· Collaborated with cross-functional teams to identify and address data needs.
· **Accomplishments：**
· Reduced data latency by 50% by implementing a new data pipeline.
· Increased data accuracy by 95% by implementing data quality checks.
· Developed a new data visualization dashboard that was used to make a $10 million business decision.

BI Developer
Coinbase   2017 - 2020   Los Angeles CA

· Developed and maintained scalable and efficient business intelligence (BI) solutions using SQL, Python, and Tableau, enabling data-driven decision-making across the organization.
· Designed and implemented ETL processes to extract, transform, and load data from various sources into the data warehouse, resulting in a 30% reduction in data processing time.
· Created interactive dashboards and reports in Tableau, providing real-time insights into key business metrics and improving data visualization for stakeholders.
· Collaborated with cross-functional teams to gather business requirements and translate them into technical specifications, ensuring alignment between BI solutions and business needs.
· Conducted data analysis and trend identification to uncover actionable insights, contributing to a 20% increase in customer acquisition and retention rates.

SKILLS

DAX • **KPI** • **Machine Learning** • **OLAP** • **Power BI** • **Python** • **Reporting Tools** • **SAP** • **SQL** • **SSAS** • **ssis** • **SSRS** • **Tableau**

STRENGTHS

Problem Solving
Strong problem-solving skills with a track record of identifying and resolving complex data issues, reducing processing time by 30%

Data Analysis
5 years of experience in data analysis, including data collection, cleaning, and visualization, resulting in a 25% increase in efficiency

EDUCATION

Bachelor of Science in Computer Science
University of Chicago
2013 - 2017
