## EXPERIENCE

### Data Analyst

2021 - Present

#### Patreon

San Francisco CA

- Analyzed data from Patreon's platform to identify trends and opportunities
  - Developed reports and dashboards to communicate findings to stakeholders
  - Collaborated with product and engineering teams to improve the platform
- Accomplishments :**
- Identified a trend of increasing creator engagement with the platform, leading to a 15% increase in creator earnings
  - Developed a dashboard that helped Patreon identify areas for improvement in its customer support, leading to a 20% reduction in customer support tickets
  - Collaborated with the engineering team to implement a new feature that improved the platform's data accuracy, leading to a 95% reduction in data errors

### Junior Data Analyst

2017 - 2021

#### LinkedIn

San Francisco CA

- Conducted data analysis and reporting for a user base of over 750 million members, extracting insights to drive business growth and inform product development decisions.
- Assisted in the development and maintenance of 30+ automated reports and dashboards using SQL, Python, and Excel, improving data accessibility and streamlining reporting processes.
- Collaborated with senior analysts to perform in-depth customer segmentation analysis, resulting in a 10% increase in personalized marketing campaigns and improvement in customer engagement.
- Conducted A/B tests on website features and analyzed results, leading to a 20% increase in conversion rates and a 25% decrease in bounce rates.
- Assisted in the development of machine learning models for predictive analytics, achieving a 85% accuracy rate and enhancing data-driven decision-making.

### SQL Server Developer

2015 - 2017

#### YouTube

San Francisco CA

- Managed and maintained two distinct databases: a read-only reporting database and a disaster recovery database, ensuring data integrity and availability.
- Developed a PL/SQL procedure to generate a shell script, enabling seamless execution of the SQL\*loader tool for efficient data loading.
- Utilized Visual Studio 2010 to create various types of reports and enhance existing reports, providing stakeholders with valuable insights and accurate information.
- Implemented Microsoft Visual SourceSafe to effectively handle version control and maintain a comprehensive history of files within the database.
